

# John Hoff

Software Engineer

## Experience

**University of Minnesota** | Morris, MN

*Teaching Assistant* | August 2017–Present

- Assist computer science faculty with grading, lab preparation, and development for an introductory JavaScript and advanced spreadsheet calculations course with 30 students.
- Mentor students one-on-one by providing feedback to improve their programming and problem-solving skills.

**Express Scripts** | Bloomington, MN

*Software Engineer Intern* | May–August 2018

- Reduced cognitive complexity by 30% in a Java based Spring Boot application in two-week sprints on a scrum team by using test-driven development.
- Designed mockups and implemented them with React to create a database administration tool that manages routing rules for claims.

**University of Minnesota** | Morris, MN

*Web Developer* | June–August 2017

- Worked on a scrum team of 3 developers for URSA Major, a web tool started in 2014 that manages the undergraduate research symposium.
- Development included customer interaction, pair programming, code reviews, refactoring, addressing deprecated features, and improving JavaScript test coverage from 63% to 84%.

## Projects

**My Panda** | Morris, MN

*Full Stack Developer* | February–May 2018

- Built a mobile optimized Angular web app that helps mental health patients track their emotions by utilizing agile methodologies on scrum teams of 4–7 developers.
- Started each of the four two-week iterations by story planning and shopping with customers. Ended each iteration with showcases and retrospectives.

## Education

**University of Minnesota, Morris** | December 2018

B.A. in Computer Science, Minor in Statistics | GPA: 3.5

*Varsity Football* | Fall 2015–Fall 2017

*Varsity Soccer* | Fall 2018

## Personal Info

**Phone**

(320) 295-2616

**Email**

hoffx247@morris.umn.edu

## Languages

Java, JavaScript, TypeScript, HTML, CSS, JSON, Python, R

## Skills

**Front-end**

React, Angular, Bootstrap, Material Design, Covalent

**Testing**

JUnit, Jasmine, Nightwatch, Cucumber, Karma, Selenium

**Databases**

MongoDB

**Continuous Integration**

Travis CI, Jenkins CI, Circle CI

**Agile Development**

Test-Driven Development, Scrum, Pair Programming

**Other Technologies**

Spring Boot, Node, GitHub, SonarQube, Jira, Gulp, Gradle
